

Organization chart

Governance Structure : the strategic Committee

* The strategic Committee

President of the management board of the SFGM-TC or a representative - 1 transplantation unit representative - 3 BRC representative - 1 Immunologist - Members of the steering committee as *ex-officio* members

Besides the members of the steering Committee, the strategic Committee brings together the Chairman of the Administrative Committee of the SFGM-TC or its representative, a representative of transplant units, three representatives of biological resources centers and an expert immunologist. It defines the strategic positioning of the whole research project and deals with all issues pertaining to the operating of the CRYOSTEM network.
